

Hi,

Many thanks for your support for the Bike Pure campaign. Firstly, apologies for the lack of updates lately – we have been overwhelmed with the response to Bike Pure. We will endeavour to get an update out to members each month outlining what has been happening.

February was a busy month for Bike Pure with a trip to the World Cyclo-Cross Championships in Netherlands. We met with many pro riders and teams and the response was very positive. USA's Team Spike rider Katie Compton carried our headset spacer and band to a bronze medal in the women's elite event. Katie is an avid supporter of Bike Pure.

Other riders to sign up this month were Garmin-Slipstream's Cameron Meyer. The young talented Australian lines up at the World track championships in March and is sure to get more success. Team Cervelo's Kirsten Wild has also joined and has had an excellent start to 2009 by winning the women's Tour of Qatar.

We also interviewed British talent Lizzie Armitstead fresh from her World Cup glory in Copenhagen. Several more top pros have also joined recently and their bio pages will be uploaded shortly.

You can also download the Bike Pure screensavers for your PC's and mobile phones from our downloads page.

We try and keep the news pages updated on a daily basis with cycling stories from around the world and updates on Bike Pure riders.

We are a non profit organization and survive on donations alone to keep our campaign going. We appreciate any donations, which receive the spacer and band, these can be made at our donation pages.

Please spread the word about Bike-Pure among the cycling community, local clubs, teams and Internet forums. Your voice counts in restoring the integrity of Professional cycling worldwide and we welcome your comments, both good and bad!

Please visit www.bikepure.org for latest news and signings.

Thank you for your continued support...spread the word in the fight against doping in our wonderful sport. The Bike Pure anti-doping campaign has no backdoors or hidden agenda. Just lovers of the sport trying to improve the image of the sport. Giving the 'clean' riders a voice that the cheats, up to now, have drowned out. Everyone involved in Bike Pure has an independent income and loves cycling and the methods proposed will hopefully re-install the trust in the peloton.

The Bike-Pure Team
